

Protect Fayetteville Ballot Question Committee

ProtectFayetteville.com PO Box 10138 Fayetteville, AR. 72703 (479) 239-5900 ProtectFayetteville@gmail.com

In regards to 119 and 5781, we believe the public has a right to know what has changed and what hasn't changed. We are grateful to the Chamber of Commerce for seeing the flaws in Chapter 119- a Chapter which the city council enthusiastically promoted. Once again the city council is pushing the re-make of 119 in Ordinance 5781. In a comparison style similar to that of an E-mail reply, Protect Fayetteville compared the Chamber's insights into 119 with our own insights regarding 5781. The title of the piece is clearly and appropriately named, "Chamber of Commerce Letter Revisited." To think that any citizen is not aware of what "revisited" means is absurd. Furthermore, we give an introduction stating that black text is the original letter regarding 119 and that the red text is commentary from Protect Fayetteville regarding the 5781 ordinance. This introduction cannot be misleading from any stretch of the imagination. Every word, header, and footer remained, "as is," to prove that the letter came from the Chamber when it was originally published. The format we selected offers convenient reading and the numbers for each, "whereas," offers a reference point. We encourage business owners to read our examination of 5781 compared to the Chamber's insights on 119 from last fall because it is most revelatory. After this analysis we encourage business owners to vote against 5781 on the 8th of September.
