Comments:

MEETING OF JUNE 7, 2022

TO: Mayor and City Council

THRU: Susan Norton, Chief of Staff

FROM: Summer Fallen, Airport Director

DATE: May 17, 2022

SUBJECT: **Acceptance of FAA Grant to fund an ARFF Cart and Approval of a Budget Adjustment**

RECOMMENDATION:

Staff requests approval for Aviation Division to accept a grant from the FAA to fund an ARFF cart in the amount of \$33,333.00 and approval of a budget adjustment.

BACKGROUND:

The FAA sent out communication gauging the need for ARFF Carts to all airports. An ARFF Cart safely allows the Fayetteville ARFF group to conduct necessary testing on the current vehicle while limiting the human and environmental impacts caused by caustic Triple F foam agents.

DISCUSSION:

Triple F foam is used to help extinguish difficult to fight fires that involve petroleum or other flammable liquids. FAA has been conducting significant research on fluorine-free firefighting foams to find a replacement with equivalent firefighting performance that eventually can be used at airports that are certificated under 14 CFR Part 139. FAA continues to partner with the Department of Defense (DoD) in efforts to find a firefighting foam that ensures the protection of the flying public with no impact on human health or the environment.

BUDGET/STAFF IMPACT:

The FAA grant amount is \$33,333.00. This will cover the full purchase of the ARFF cart.
